Your AXA PPP healthcare International Directory of Hospitals

Welcome

Welcome to your AXA PPP healthcare International Directory of Hospitals listing those hospitals worldwide with which AXA PPP healthcare has a direct settlement agreement.

This directory forms part of the terms of your policy.

Wherever you are in the world, your directory will help you and your medical practitioner select a hospital should you need in-patient or day-patient treatment. Please keep it in a convenient place in case you need it.

This information is also available on our website at:

www.axapphealthcare.com

Help us to help you

AXA PPP healthcare is actively seeking to increase the extent of our direct settlement service.

If you are aware of any hospitals that may be candidates for this direct settlement programme please send us their details.

1 Introduction

The International Directory of Hospitals

Your International Directory of Hospitals lists all the hospitals worldwide with which AXA PPP healthcare has what is known as a 'direct settlement' agreement and those in the UK covered by your policy. This means that, if you receive in-patient treatment at any of the named hospitals, we will pay your eligible bills direct to them, providing that we have agreed your treatment in advance.

It means you won't have the worry of having to pay in advance for your care and then claiming reimbursement from us.

If you receive treatment in the UK, it is important to check the UK section of your Directory of Hospitals on page 42 to ensure the treatment facility you are intending to use is covered under your policy.

How to use your directory

If and when your medical practitioner advises that you need in-patient or day-patient treatment, we recommend you discuss your choice of hospital from your directory with them.

You'll find the directory entries are arranged alphabetically by region so you can find the hospitals nearest to you quickly and easily.

How to arrange direct settlement

When you know for sure that you need hospital treatment, you must let us know before your treatment starts. We will then have time to confirm that you are covered for your proposed treatment and to arrange for direct settlement of your eligible bills with the hospital. *(If you don't let us know well in advance of your treatment, the hospital may ask you to supply a deposit or credit card imprint to guarantee payment until we can provide the appropriate guarantee to them).* Whichever hospital you are due to go in to, please follow the process below as soon as you know you need treatment.

1. The first thing you'll need is a claim form to tell us about your proposed treatment. You can get one by contacting our direct settlement helpdesk on the numbers shown over the page, or you can complete a form on-line at www.axapphealthcare.com. If you're in a company health care plan, your group secretary may also be able to supply you with a form.
2. Once you have a claim form, please fill it in with the help of your medical practitioner. You should then post a copy or fax your completed form to the direct settlement helpdesk as quickly as possible so we can process your claim promptly.
3. Once we have confirmed whether your treatment is eligible under your policy, we will notify you and your chosen hospital, either within 24 hours Monday to Friday, or 48 hours at the weekend or during UK national holidays. We will also agree with them our payment for an initial period of hospitalisation. If your stay needs to be longer than this, we'll ask them for more details about your case.

4. When you're admitted into hospital, please make sure you take with you your original claim form and all the details of your AXA PPP healthcare membership, including your membership card.
5. Once you are discharged, your chosen hospital will send your eligible bills and original claim form to us for settlement. If you receive any bills by mistake, please forward them to the direct settlement helpdesk as soon as you can.

Direct settlement helpdesk

AXA PPP healthcare, Phillips House, Crescent Road,

Help us to help you

We see it as our job to agree fair and reasonable charges with the medical providers we work with, so we can help keep your premiums low.

Even so, there are a number of ways you can help us provide you with even better value. When using this directory you may want to:

- Ask your selected hospital to treat you at times that do not attract surcharges.
- Talk to your practitioner about the possibility of receiving surgical treatment as day-patient treatment rather than as in-patient treatment. More and more medical procedures allow treatment to be undertaken in this way, enabling you to recuperate in the comfort of your own home.

What if I go into a hospital not listed in the international section of the directory?

If you are due to go into a hospital that is not listed in the international section of your directory, we may still be able to settle your bills direct. In this instance, you should still follow the steps on pages 4-5 and we will then discuss the matter with the hospital concerned.

What happens with out-patient treatment?

AXA PPP healthcare does not usually provide direct settlement for out-patient treatment. This means that you will need to pay for your treatment when you attend, and then send us the receipts to claim a refund from us. Most hospitals will provide you with receipted bills.

Once we have received your receipts, we will then arrange to reimburse you as quickly as possible in accordance with the terms of your policy. The good news is that if your out-patient treatment occurs within twelve months of a related in-patient stay, you won't need to fill in another, separate claim form.

Any exceptions?

There are some circumstances where AXA PPP healthcare will settle your out-patient costs direct with the hospital.

For instance, we may provide direct settlement for long courses of chemotherapy, radiotherapy or expensive scans and tests. If you think your treatment falls into these categories, please call our team of Personal Advisers for advice well in advance of your treatment date.

Please note however that some hospitals in the directory may not accept direct settlement for the treatments outlined above. In these cases and depending on your policy, they may ask you to pay an excess charge for the specified treatments. Again, our team of Personal Advisers will be able to advise you on this.

Third party local knowledge

In some parts of the world, such as the Caribbean, Central America, North America, South America, Hong Kong, Italy, Singapore and Africa, we operate in association with local companies that offer access to and direct settlement with their own local network of hospitals. Doing this enables our associates to provide you with a larger choice of hospitals in the following areas:

Caribbean	– see page 8	Hong Kong	– see page 13
Central America	– see page 9	Indonesia	– see page 14
South America	– see page 10	Philippines	– see page 14
North America	– see page 11	Singapore	– see page 15
Canada	– see page 11	Greece	– see page 24
Africa	– see page 12	Italy	– see page 25
China	– see page 13		

Using their expert local knowledge our associates will help you locate appropriate hospitals in their areas, as well as confirm your cover and arrange for direct settlement to take place. Each associate also provides an English-speaking telephone line exclusively for AXA PPP healthcare members so, if you need to discuss any aspect of your cover, help is always at hand.

You'll find details and contact numbers of our associates in the directory.

Standards of care

As a medical insurer, AXA PPP healthcare has no control over the standards or facilities provided by the hospitals listed in the international section of your Directory.

We simply agree to make direct settlement with the named hospital based on your entitlement for a single en-suite room, availability permitting. Their inclusion should not be interpreted as an indication of the quality of services they provide.

Any questions? Our team of Personal Advisers will help

If you're unclear about anything in this directory or have any questions about your AXA PPP healthcare cover, our team of Personal Advisers is there to help. Just pick up the phone and call them direct for helpful assistance and advice.

If you have any questions about using your directory or simply have any queries about your AXA PPP healthcare membership, our team of Personal Advisers is ready to help with advice, at the times below (UK time):

Monday to Friday 8am to 8pm

Saturday 9am to 5pm

Call us on +44 (0) 1892 503 856

Calls may be recorded in case of subsequent query.

2 International Directory of Hospitals

Caribbean

If you require treatment in the Caribbean our associate can help you locate local providers and to settle accounts directly with them. For in-patient, day-patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

For reference purposes we consider the following to be in the Caribbean: Antigua, Bahamas, Barbados, Barbuda, Bermuda, Dominica, Dominican Republic, Grand Cayman, Grenada, Guadeloupe, Haiti, Jamaica, Martinique, Puerto Rico, St. Lucia, St. Vincent, Trinidad and Tobago.

The dedicated toll free number to call is
1 888 467 0669.

The dedicated call collect number is
1 312 935 3675.

Central America

If you require treatment in Central America our associate can help you locate local providers and to settle accounts directly with them. For in-patient, day-patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

For reference purposes we consider the following to be in Central America:
Belize, Costa Rica, El Salvador, Guatemala, Honduras, Mexico, Nicaragua and Panama.

The dedicated toll free number to call is

1 888 467 0669.

The dedicated call collect number is

1 312 935 3675.

South America

If you require treatment in South America our associate can help you locate local providers and to settle accounts directly with them. For in-patient, day-patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

For reference purposes we consider the following to be in South America: Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, French Guiana, Guyana, Paraguay, Peru, Surinam, Uruguay and Venezuela.

The dedicated toll free number to call is
1 888 467 0669.

The dedicated call collect number is
1 312 935 3675.

North America

United States of America

If you require treatment in United States of America our associate can help you locate local providers and to settle accounts directly with them. GREECE

If you require treatment in Greece our associate can help you locate local providers and to settle accounts directly with them. For in-patient, day-patient or major out-patient treatment we recommend you contact us prior to receiving treatment. If you are unable to make contact before admission we may not be able to guarantee a direct settlement so you may have to pay a deposit to the hospital or pay your bill in full before receiving treatment or upon leaving the hospital.

The dedicated number to call is
800 11 77742 toll-free within Greece.

Alternatively call: 211 1075734/735, or
+302109460204.

If outside Greece. Fax: +302109480566

3. The UK Directory of Hospitals

The following sections cover information about our UK network of hospitals only.

A national network of selected hospitals

As an AXA PPP healthcare customer, you have access to a national network of hospitals, day-patient units, scanning centres and other private healthcare facilities. These have been selected by our team of doctors, nurses and other medical professionals following a comprehensive assessment of their quality, value and range of services.

All of them are listed in our Directory of Hospitals.

Oral surgery

If you require an oral surgical procedure, then we will provide benefit for those oral surgical procedures as set out in your membership handbook, when your dentist refers you directly to a facility indicated by the **OS** symbol in our Directory of Hospitals. Please visit our website:

www.axapphealthcare.co.uk/hospitals for further information and contact our team of Personal Advisers before treatment.

Cataract Surgery

If you require an eye operation involving cataract surgery, then we will provide benefit when your general practitioner refers you directly to one of the facilities indicated by the **CS** symbol in our Directory of Hospitals.

As we increase the number of these arrangements across the country we will provide updated information on our website. Please visit our website: www.axapphealthcare.co.uk/hospitals for further information and contact our team of Personal Advisers before treatment.

Our quality assessment and improvement programme

Our initial assessment covers most aspects of the hospital's services. We only select hospitals and other facilities for inclusion in our network if they meet our strict quality criteria. This is only the beginning, however, and once accepted, hospitals must then undertake a programme of continuous quality improvement to ensure that their services continue to meet our required standards, in light of advances in medical care.

In turn, we are committed to supporting the hospitals included in our network, encouraging them to invest in new facilities and services – to our mutual long-term benefit.

We regularly monitor their performance to assess their quality of care, which is why your feedback is particularly important.

If you should need to use a facility, please complete your hospital's patient satisfaction survey form and return it to them.

Standards for specialised services

We also work closely with network hospitals that provide certain specialised care services such as cancer, cardiac revascularisation, critical care, paediatrics and psychiatric care. National guidelines for these have been established in conjunction with appropriate professional authorities and organisations.

The benefits of our network hospitals

Being treated in advanced medical facilities in a supportive, professional environment can play an important role in helping patients to recover. The hospitals included in our Directory of Hospitals will endeavour to make your stay as pleasant and comfortable as possible.

You can usually have your own private room with en-suite bathroom, television and telephone. You will be given a choice of dishes for each course at mealtimes and your visitors may, within reason, come and go as they wish.

Be sure to call us first

To check whether you are covered, please call us before you start treatment. We will then be able to authorise your claim in advance – as described in the section ‘Receiving treatment and making a claim’ in your membership handbook.

There may be rare occasions when we suspend the use of a network hospital or another facility listed in our Directory of Hospitals to protect the interest of our members. Should this occur, we will indicate the suspension on our website: www.axapphealthcare.co.uk/hospitals.

Day-patient treatment

Advances in medical care mean that many operations are now undertaken on a day-patient basis. This is in keeping with good clinical practice. Please note that you may be cared for in an open day ward (rather than a single room) while you recover from an anaesthetic to enable nursing staff to monitor your progress more effectively. Most hospitals now offer day-patient treatment and we have included a number of purpose-built day-patient units in the Directory of Hospitals.

Please check the Directory of Hospitals

The map on page six shows the United Kingdom divided into eleven areas. This is then followed by a list of the hospitals, scanning centres and other facilities with one or more symbols shown against the name of each facility listed. Each entry shows the medical service available, arranged alphabetically by town and ordered in reference to the eleven areas shown on the map. If you have any questions, please call our team of Personal Advisers. For full details of the facilities and the range of services provided by the hospitals, scanning centres and other facilities listed in the Directory of Hospitals (and for information on medical specialists we recognise for benefit) please visit our website: www.axapphealthcare.co.uk/hospitals or contact our team of Personal Advisers.

Key to symbols

OS Oral surgery arrangement in place

CS Cataract surgery arrangement in place

A triangle (Δ) indicates an NHS hospital that does not have dedicated private patient facilities. (We will recognise an NHS bed nominated as a private bed but in such cases the level of accommodation may be the same as standard NHS accommodation.)

Scanning centres – these centres provide:

M MRI (magnetic resonance imaging)

C CT (computerised tomography)

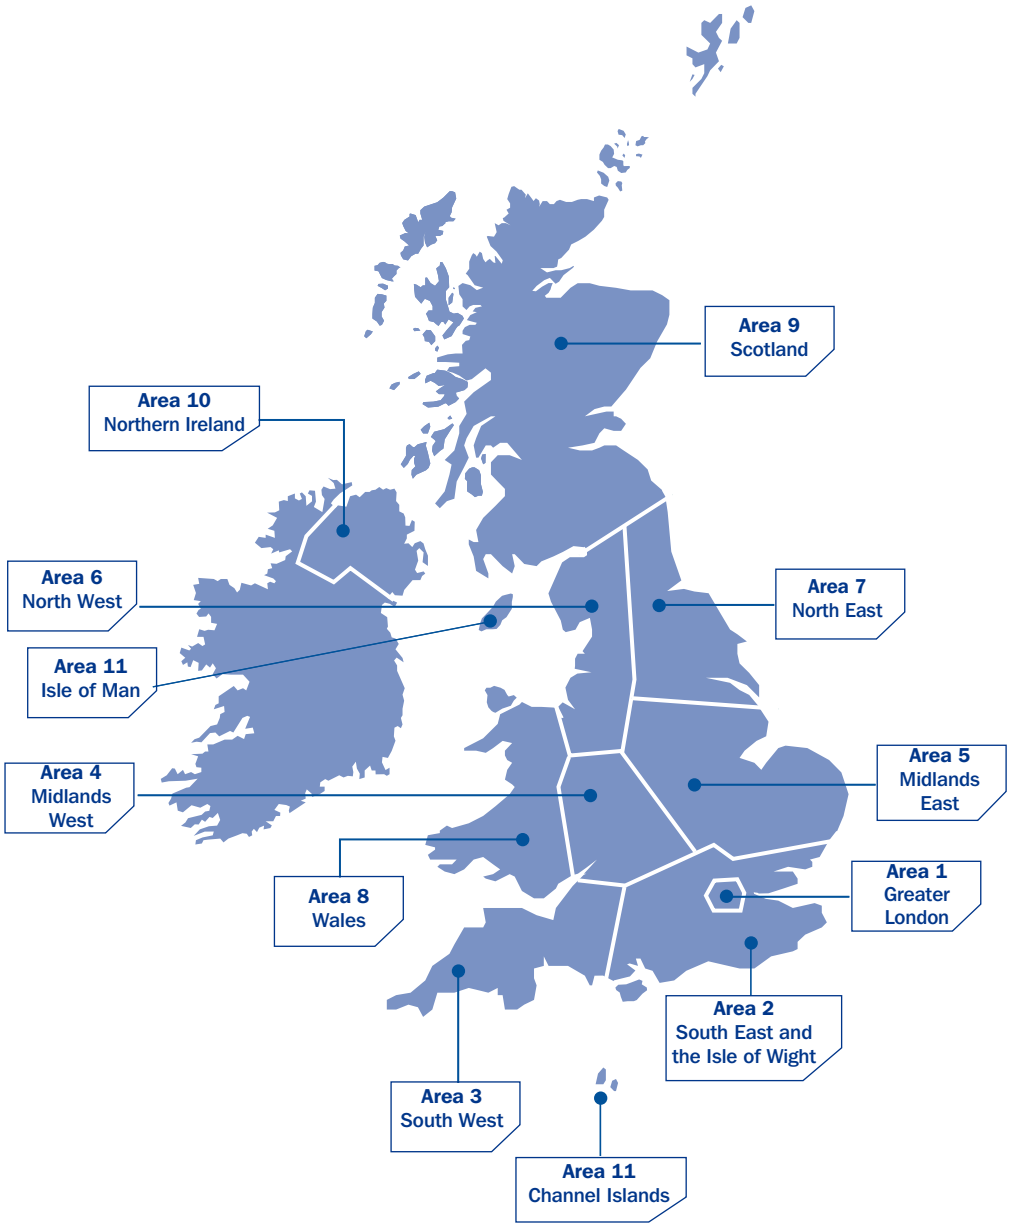

P PET (positron emission tomography)

These are usually carried out on an out-patient basis. Only the centres listed can be used for out-patient scanning.

G **General hospitals** – acute medical and surgical hospitals and day-patient units which are recommended by AXA PPP healthcare following our selection process and where you will receive a full refund for hospital treatment.

Ps **Psychiatric hospitals** – hospitals that specialise in the treatment of psychiatric illnesses.

R **Rehabilitation units** – units that provide specialist rehabilitation services.
